Title: Pacific Northwest Geometry Seminar, 2012 Spring Meeting

Event Type: Conference-Workshop

Location:

PIMS UBC, WMAX 110

Dates:

May 5-6, 2012

Topic:

Geometric Analysis

Methodology:

The program featured 5 talks (1 hour each). There are a number of very active researchers in geometry scattered throughout the various universities which are involved in the Pacific Northwest Geometry Seminar. These periodic meetings bring these researchers together for consultation, collaboration, and stimulation of new ideas.

Organizers:

Chau, Albert, Department of Mathematics, University of British Columbia; Chen, Jingyi, Department of Mathematics, University of British Columbia; Fraser, Ailana, Department of Mathematics, University of British Columbia

Speakers:
