

Prairie Discrete Mathematics Workshop 2021

August 13–14, 2021

The workshop builds on the success of the previous Prairie Discrete Math Workshops, from the first one organized by Shaun Fallat and Brian Alspach and held at the University of Regina in Regina, Saskatchewan, in early October 2003, through the most recent held at Brandon University in 2018. The intention is to gather together combinatorists from the prairie provinces and nearby locations for a relatively informal workshop. The workshop will be held in Lethbridge, hosted by the University of Lethbridge.

SPEAKERS:

Gary Au, University of Saskatchewan

Nancy Clarke, Acadia University

Mark Kayll, University of Montana

Dave Morris, University of Lethbridge

Shahla Nasserar, Rochester Institute of Technology

Ortrud Oellermann, University of Winnipeg

If you would like to contribute a talk, please contact the organisers by the end of June.

LOCATION:

The meeting will be available and accessible for virtual participation, with the hope that public health restrictions will allow some people to attend in person. In addition to event hosting at the University of Lethbridge, small “watch party” gatherings may be organised at other locations.

For more information, watch party set ups, and to contribute a talk, visit <https://www.pims.math.ca/scientific-event/210813-pdmw>
